EMGOLD REFILES QUARTERLY REPORTS

Emgold Mining Corporation (EMR: TSX Venture Exchange) (“the Company”). In connection with a recently completed continuous disclosure review by the British Columbia Securities Commission, the Company has filed by SEDAR an amended Form 51-901F quarterly and annual report for the year ended December 31, 2002, and an amended Form 51-901F quarterly report for the three months ended March 31, 2003. The Schedule C Management Discussion and Analysis for the respective periods has been revised. The substantive change involves the deletion of references to and discussion of a Scoping Study completed by AMEC E&C Services Limited in October, 2002 on the Company’s Idaho-Maryland project located in Grass Valley, California, as disclosed in a news release dated August 15, 2003. The Scoping Study was commissioned by the Company for permitting and planning purposes and is not a pre-feasibility or feasibility study.

The Forms 51-901F for the respective periods supercede and replace the corresponding previous filings.

Shannon M. Ross, CA
Chief Financial Officer
